Health Officer - Hospet Municipality - Budget estimate for 1930-31 - Provisions eliminated.

In reply to your letter No.4383-19 E., dated 25th November 1929 I have the honour to forward herewith an extract from the resolution of the Council met specially to discuss the Budget estimate for 1930-31 on 18th January 1930. Hence the question of appointing a Health Officer from 1st April 1930 may therefore be dropped. Another Sanitary Inspector will however be appointed to look after the town sanitation. This appointment will make two Sanitary Inspectors for the Hospet Municipality from 1st April 1930.

Copy of Extract from Resolution No.190 dated 18th January 1930.
Special meeting.

Eliminate Health Officer and his establishment etc. Rs.2,400/- and provide for another Sanitary Inspector at Rs.40/- per mensem and Rs.15/- month for Civil Veterinary Assistant for meat inspection.

Chairman.

Copy of reply letter R.No.338-1 E., dated 25th January 1930 of the Director of Public Health, Madras to the Chairman, Municipal Council, Hospet.

Reference:- Your letter Cr. No.438/29. dated 18-1-1929.

I have the honour to state that Hospet is an endemic centre for both Malaria and Plague and is a growing commercial place and as such the town requires the services of an experienced qualified Health Officer to tackle its general thorny health problems. I regret to observe that the present resolution of your Council to appoint a Sanitary Inspector instead, is a distinct retrograde step. The action of the Municipal Council is not therefore sound both from the public

health

health and economic points of view.

In the interest of the Public Health of your town, I would therefore advise you to take in a Health Officer from 1st April 1930 as originally resolved. I may point out that the contribution you have to pay for the employment of a Health Officer is only Rs.62-8-0 a month, or Rs.750/- a year which is only a few rupees more than the intended cost of an additional Sanitary Inspector and the allowance to the Veterinary Assistant put together.

Kindly intimate your final decision on the matter at a very early date.

Chairman Municipal Council, Hospet
(Designation)

To The Secretary to the Government of Madras,
Local Self Government Department.

Sir,

The question of entertaining a Health Officer is being pressed by the Health Department . The Council's finances are too week to bear any more expenditure than what has been provided in the budget for 1930-31. There is no provision for an Health Officer . If one is now sanctioned there will not be the minimum closing balance of 5% of the receipts left under general accounts. Apart from this the G.O. I492L4M dated 29-6-23 too is very severe in point of sanctioning expenditures not provided for in the budget. Under these circumstances I beg to submit it that nothing can be spent out of General funds at present.

In view of the importances and the benefit that which can be derived from the appointment of an Health Officer,

Docket at (A)

AV/1491

I request the Government to kindly allow the council to sanction the entertainment and to meet its cost from the earmarked funds accured on account of the ~~provincialisation~~ provincialisation of hospital which are now being utilised for antimalarial operations. It might be added here that the report of the special Malarial Officer also insists upon the appointment of a Health Officer who would certainly spend a considerable amount of his time for antimalarial work . Hence the permission asked for is quite legitimate. Similar concession has been shown in meeting the expenditure on account of of sanitary operations.

I have the honour to be,

sir,

Your most obedient servant,

Vice Chairman M.C.

The Corp Hospl now ~~Municipal~~ - requests the Govt. to allow the Council to employ a Health officer and to meet its share of the cost from the Savings on account of provincialization of hospital. The C's contribution towards the cost of the Health officer is Rs 750 per annum. The Savings accruing on account of the provincialization now come amount to more than Rs 5000 a year. It has been utilized for the last two

years on anti malarial operations. The first five Savings are intended for expenditure on water supply and drainage Schemes. There seems however to be no immediate prospect of utilizing them on these Schemes. As the amount required on account of the Health Officer is only Rs 750 per annum, the proposal of the Chairman may be approved with the consent of Finance.

4. As regards giving effect to the proposal during the current year, the post which was originally provided for this municipality has since been given to the Chunkepet mcl. There is another post of a 2nd Class HO. originally intended for the Palani municipality. The Palni mcl has subsequently refused to employ a Health Officer. The question of giving it to Dindigul mcl is separately under consideration. If the cl agrees to employ, one during the current year, the proposal in respect of this Hospet mcl should be brought forward as a Part II scheme for the next year.
